**1. Basis of preparation (cont'd)**

**Prior year adjustment**

On 28 May 2024, the Group subscribed to 102,779,550 new rights units in an associate, Tower Real Estate Investment Trust (“Tower REIT”), pursuant to its Rights Issue, for a total subscription amount of RM31,861,661. Following the subscription, the Group’s effective interest in Tower REIT increased from 21.66% to 33.32%. In accordance with MFRS 10 Consolidated Financial Statements, the Group has reassessed and concluded that it controls Tower REIT as its effective interest is significant. As a result, the Group has reclassified its investment in Tower REIT from an associate to a subsidiary.

Accordingly, the comparative figures have been restated to reflect the derecognition of the associate and the effects of the business combination and consolidation of Tower REIT from that date.

*The figures have not been audited*

**12. Review of performance**

- (a) Performance of the current quarter against the immediate preceding year's corresponding quarter.

For the current quarter under review, the Group recorded revenue of RM151.8 million, representing an increase of RM55.2 million or 57.2% from RM96.6 million in the corresponding quarter of the preceding year. The higher revenue was mainly driven by the Emerald 9 projects in Cheras, which continued to register robust sales and progressive construction billings, as well as higher unit sales recorded at Oval KL and DC Residensi.

The Group recorded a loss before tax of RM3.5 million for the current quarter, compared to a profit before tax of RM5.3 million in the corresponding quarter of the preceding year. The decline was mainly attributable to the inventory write-down of RM7.2 million relating to PJ City, the additional rebates offered under the new sales packages, as well as the higher revenue mix from the affordable segment of the Emerald 9 project in Cheras, resulted in lower profit margin in the current quarter. In contrast, the profit contribution in the corresponding quarter of the preceding year was mainly derived from the higher-margin Emerald Hills project which delivered its vacant possession in corresponding quarter of preceding year.

- (b) Performance of the current financial period against the preceding year's financial period

The Group recorded revenue of RM425.3 million, RM115.2 million or 37.1% higher than the RM310.1 million in the preceding financial period. The increase in revenue was mainly driven by the property development division, arising from the ongoing Emerald 9 projects. This was partially offset by the absence of revenue recognised in the preceding financial period following the completion of the North Tower of the Emerald Hills project in Cheras. In addition, the hotel division recorded higher revenue in the current financial period, mainly attributable to better overall performance of both Rooms and Food and Beverage divisions in the hotel.

The Group's profit before tax decreased by RM7.9 million to RM19.0 million, compared to RM26.9 million recorded in the preceding financial period. The decline was mainly attributable to the inventory write-down of RM7.2 million relating to PJ City. In addition, the lower profit contribution from the Emerald 9 project in Cheras, as explained above, coupled with the further provision made for the litigation case involving Barisan Proforma, as disclosed in Note 20 below, also contributed to the lower profit before tax recorded in the current financial period. In comparison, the profit contribution in the corresponding period of the preceding year was mainly derived from the higher-margin Emerald Hills project.

**13. Material change in profit before tax for the current quarter compared with the immediate preceding quarter**

The Group recorded a loss before tax of RM3.5 million for the current quarter, compared to a profit before tax of RM10.8 million in the immediate preceding quarter. The pre-tax loss for the current quarter was mainly attributable to the one-off inventory write-down of RM7.2 million relating to PJ City. Meanwhile, the additional rebates offered under the new sales packages for the Emerald 9 project also resulted in a lower profit margin during the current quarter.
